Subject RE: Meeting on March 1st

Kevin,

Thanks, 9:30 it is. To make efficient use of our time, as we will already all be together, let's plan on discussing Richardson issues (both RD/RA and past costs) following discussion of hotel. At a minimum, I'd like to solicit your input on the most logical way to divide the parties and issues in a consent decree or decrees. For example, we could have one decree with all issues (both RD/RA and past costs) and all parties. We could have two decrees (either divided by party - with UPCM in one decree and other parties in second decree -- or by issue). Etc. We can also talk about your proposed edits to the model RD/RA decree. While I'm still looking through them, they appear focused on the definitional section.

Look forward to talking with you next week,

Mark

RE: Meeting on March 1st

We get in at 8:30 we will be downtown at 9:00, 9:30 is great. David Zimmerman and Chris Thomas from Athens want to discuss the hotel first so I have told them to meet us there at 9:30. Last we spoke you guys mentioned we should discuss Richardson as well. We can dismiss Athens when we finish the hotel discussion and move on to Richardson, or other issues, if you want to do that. Just let me know what you all want to do so I can prepare.

Kevin: When you mentioned getting in at 9, I assumed that meant getting to downtown Denver by then. Is that right? Or was that arriving at DIA at 9? If the latter, then 9:30 wouldn't give you enough time to get here.
